REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior art fails to teach or suggest a system and method for electronic commerce where a sales trend condition is calculated from a sales velocity that is calculated based on a plurality of rules that are based upon a real sales velocity for products, that is determined by dividing for each of the plurality of products a quantity sold by an elapsed time since the sale start time, and a set sales velocity that is determined by dividing for each of the plurality of products an initial quantity of the products by the initial sale duration time. While prior art does disclose various embodiments for tracking a sales velocity, it does not succeed in disclosing showing a sales trend indicator, calculated as advanced above, on a website including a portion of the product data, for each of the plurality of products.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lindsay M. Maguire whose telephone number is 571-272-6039. The examiner can normally be reached on M-F: 7-4.
